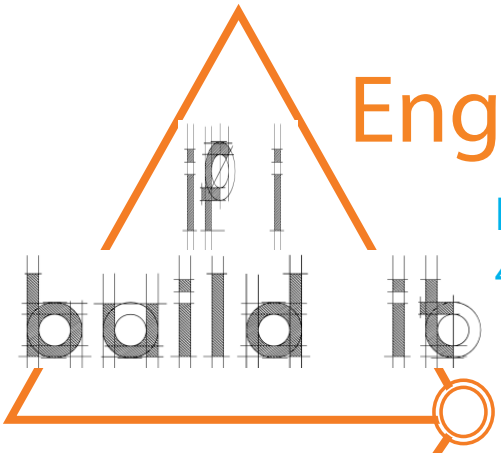
the College of Engineering, Architecture and Technology

Present



Engineering Camp

For kids entering grades 4th through 6th in Fall 2017

Kids will build a variety of fun, hands-on projects and learn about different career opportunities in engineering by working in class with professional engineers.

Becky Hammack, Ph.D., Presidential Award for Excellence in Mathematics and Science Teaching at the K-6 level recipient and 2017-18 Albert Einstein Distinguished Educator Fellow, will teach.

July 10-14, 2017 from 8:30am-12:30pm
012 Willard, OSU Stillwater

Registration is $110.00 and includes snacks, materials, and a camp T-shirt.

A showcase will be held at 11:30 on Friday, July 14th in the Willard Living room for the students to share their projects with their parents.
