# Research on STEM Teaching and Learning

## Open-Up Resources Mathematics Curriculum Year Long Professional Development

OSU College of Education, Health and Aviation's Center for Research on STEM Teaching and Learning (CRSTL) in collaboration with the Oklahoma State Department of Education will be providing a year-long (30 hours) professional development opportunity for schools using the Open-Up Resources Mathematics Curriculum during the 2018-19 academic year.

**Dates/Times:** Summer-In person days: **May 31st-June 1<sup>st</sup>, 2018**

Academic Year: 9 virtual training sessions (2-hours each; about one per month Aug 2018 to Apr 2019)

**Where:** OSU-Stillwater, Willard Hall

**Cost:** \$100 per teacher

(Note: Cost is actually \$400 per teacher; however, the OSDE is providing a \$300 per teacher partial scholarship to help cover the cost for teachers.)

**Grade levels:** 6, 7 and 8 grade teachers (we encourage virtual teams)

**Registration:** <https://tinyurl.com/openup-osu>

- Registration is **limited to the first 50 teachers at each grade level**. Registration will also have limits for type of school (rural, urban, and suburban) to ensure a diverse group of schools.
- When the slots are full, we will create a waiting list.
- Lunch for the 2 days in the summer is included in registration.
- You may use a credit card or school purchase order when registering. For purchase orders, you will need to choose invoice me and enter your purchase order number. All purchase orders should be made out to CRSTL-Open-Up Training, 325R Willard, College of Education, Health and Aviation, Stillwater, Ok 74078.
